SUMMARY

Second-year CSE student (**CGPA 9.5**) who ships. Built an AI threat-analysis platform that placed **3rd out of 50+ teams at HackaFest 2026** and delivered **2 live production websites for paying clients**. Strong across React/Next.js, Node/PHP/Firebase, SQL, plus **API-security certified** (APIsec University) with hands-on AI/security tooling.

PROJECTS

Impostr - AI Threat Analysis Terminal (impostr-vmid.vercel.app) 3rd Place, HackaFest 2026

- Placed **3rd out of 50+ teams** at HackaFest 2026 (Biratnagar International College) by building, with one teammate, an AI-powered domain/URL threat-investigation platform in a single event window.
- Consolidated **4 live threat-intel feeds** (URLhaus, PhishTank, OpenPhish, crt.sh) plus **3 lookup types** (WHOIS, DNS, SSL) into one verdict view, by writing API aggregation and normalization logic.
- Enabled instant scam/phishing triage of pasted text and visual tracing of domain infrastructure, by integrating an **AI text analyzer** and an **interactive network-graph** visualization.
- Published a technical write-up on the engine's multi-vector forensics design, "**From URL to Verdict**", on Medium ([read article](#)), by documenting the architecture and design decisions for other developers.

Capital Marketing - Corporate Website, Client Project (capitalmarketingnp.com) Live in production

- Launched a **production site for a Nepal-based corporate gifting company**, giving it a public product catalogue and a direct customer-inquiry channel, by designing and building the product showcase, company pages, and inquiry flow end to end.

ShubhLabh Construction - Company Website, Client Project Live in production
(shubhlabhconstruction.com.np)

- Gave a construction firm a **responsive online presence** across mobile and desktop, by building service, project-highlight, and contact sections that turn visitors into leads.

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript, TypeScript

Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3

Backend & Data: Node.js, Express.js, PHP, Firebase, MySQL, PostgreSQL, SQL

AI / Security: API Security, Generative AI, Prompt Engineering, OpenCV, OCR, Threat-intel APIs, WHOIS/DNS/SSL analysis

Tools: Git, GitHub, Vercel, VS Code, Google Colab

EDUCATION

Siddaganga Institute of Technology, Tumakuru - B.E. Computer Science & Engineering 2025 - 2029
CGPA: **9.5 / 10** (current)

Shikshadeep Higher Secondary School, Biratnagar, Nepal - Higher Secondary (Science) 2023 - 2025
GPA: 3.46 / 4.0

DAV School, Biratnagar, Nepal - Secondary Education 2023
GPA: 3.14 / 4.0

CERTIFICATIONS

- API Security Certification** - APIsec University (2026) ([view post](#))
- Claude Code in Action** - Anthropic (2026)
- Prompt Engineering** - Infosys Springboard (2026)
- Getting Started with AI on Jetson Nano** - NVIDIA (2025)
- Neural Network & NLP Implementation** - Infosys Springboard (2025)
- Generative AI Literacy** - NASSCOM FutureSkills Prime (2025)
